CHURCH TV OS

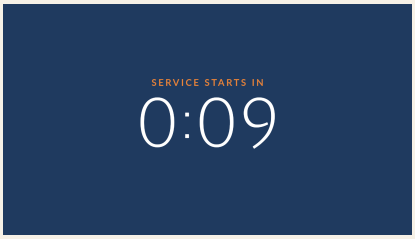

Every screen at your church, run from your phone.

Kids rooms, lobby signs and Sunday slides on the TVs you already own.

- Fire TV
- Google TV
- Roku
- LG and Samsung: coming soon

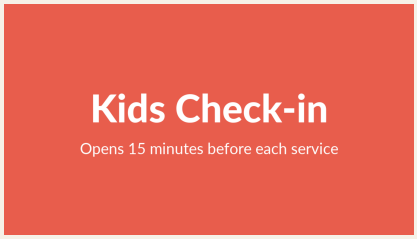

Screen from the built-in demo

Kids

Playlists, countdowns, lyrics and YouTube, scheduled per room. The leader presses Play.

Signage

Pictures, video and text signs on a weekly loop in lobbies and halls. Landscape or portrait.

Slides

Songs, lyrics, pictures and video for chapels and small rooms. Import a PDF or PowerPoint.

From box to Sunday in three steps

1 Pair a TV

Open the app. It shows a six-character code. Type it into the dashboard and pick the room.

2 Build and schedule

Upload videos, write songs and signs, or import a PDF. Put it on the calendar. Thursday night is fine.

3 Run it from your phone

Next, back, blank, or a message to the screen. Volunteers get a role that can run it but not edit.

Built for Sunday

- Plays from saved content if the internet drops
- Volunteers run it without being able to break it
- One TV, a whole week: Signage on weekdays, Kids on Sunday

Start a free trial. Pair a real TV this week.

[PRICE] per module per TV · [FOUNDING OFFER] · [TRIAL DAYS]-day free trial
